Engineer for payment on behalf of the Govt as owner. The so called water tax which used to be levied hitherto for water connections given to those buildings had to be relieved from the tenants under G.O. No 5635-7 dated the 22nd December 1909 the present water-rate being deducted from the said tax, the Govt as owner will have to pay the same to the P.W.D, subject always to the rule that charges for excess consumption of water should be paid by the tenant or occupant.

To save trouble it may be ruled that the general water rate be paid by the Engr but excess charges may be recovered from the occupier direct as a liability against him - It is not desirable to make the excess charges payable by Govt in the first instance & recoverable from the occupier - I am afraid under such an arrangement we may have to [illegible] but no occupier will make any complaint & loss may occur.
